

STH Coalition Partner Form

What does it mean to be an STH Coalition Partner? Your organization is committed to engaging with a group of multi-sectoral partners to advance global STH Control efforts. **For more information about becoming a partner, please contact STHCoalition@taskforce.org.**

Benefits of partnering with the STH Coalition:

- Opportunities for collaboration
- Presentation of a strong, unified voice for STH control
- Educational opportunities
- Support

To become an STH Coalition partner*, your organization must:

1. Indicate interest in joining the STH Coalition.
2. Articulate your commitment (see Partner Commitments at STHCoalition.org for examples).
3. Share your organization's logo for use on STHCoalition.org and other STH Coalition materials. We prefer EPS files, but will also accept high resolution PNG or JPEG files.

* Coalition partners are organizations, although unaffiliated individuals are welcome to participate in Coalition activities.

To become an STH Coalition partner, please complete the form below and email it, along with your organization's logo, to STHCoalition@taskforce.org. Unless otherwise requested by your organization, this information will be posted online and available to the public. (Note: This form is available online at: STHCoalition.org.)

Name of Organization: _____ Email: _____

Name of Primary Contact: _____ Title of Primary Contact: _____

COMMITMENT TO STH: Please provide a bulleted list of what resources your organization is committing to STH control efforts. This can include drug donations, partnership, advocacy, community outreach, etc. A commitment does not need to solely reflect new or financial resources.

COUNTRIES: If relevant, please list the countries where your organization is currently working on STH control.

WORKSTREAMS: Much of the STH Coalition's work is conducted through seven workstreams. For more information on the workstreams, [click here](#). Please check the box(es) of the workstream(s) your organization is interested in joining.
